Nicholas is a Partner in the international specialist construction, engineering and energy lawyers Fenwick Elliott LLP, where he conducts a mix of international dispute resolution and projects work. He acts for contractors, employers and governments in a wide range of technically complex construction sectors internationally including; energy, infrastructure, rail and metro, communications, industrial, waste, water, desalination, process plant, oil and gas, and petrochemical as well defects, collapse and fire safety. Advising on numerous power projects around the world, he advised in relation to Europe's largest gas combined cycle power plant, as well as advising on nuclear (new and old), oil, coal, hydro, off shore wind farms, biomass, solar and an innovative ocean current project and data centres. A solicitor advocate and chartered surveyor, his dual qualifications provide a layer of expertise that adds a practical level to his work. The IBA's International Who's Who of Business Lawyers Today, listed Nicholas as one of the *'ten most highly regarded individuals internationally for construction law'*.

Dispute resolution experience focuses on international arbitration and dispute boards, acting in Europe, the Middle East and parts of Asia and Africa, also acting in more than 100 adjudications in the UK. Nicholas is a Vice President of the ICC's Arbitration Commission. He also acts as adjudicator (TeCSA, RIBA, CEDR, SCLTechLaw and CIArb, registered), dispute board (DAB/DRB) member (FIDIC adjudicator, registered with DRBF) and arbitrator (ICC, LCIA, DIAC, DIFC, *ad-hoc* UNCITRAL). He has trained mediators, adjudicators, arbitrators and dispute board members for CEDR, CIArb, ICE, DRBF and the IFC (World Bank). He regularly acts as a mediator (in more than 100 mediations) in construction, engineering, insurance, property and commercial disputes (CEDR Chambers, LCIA, Clerksroom) including high value complex multi-party mediations.

FIDIC experience is wide ranging including advice in respect of design and build and turnkey contracts for highways, bridges and tunnels, waste processing, water treatment and general construction. EPC/EPCM experience includes gas to liquid plants, pipelines, tank farms and pumping stations, desalination plants, PTA process plants, data centres, and a paper mill. PFI/PPP experience includes hospitals and courts. He has advised in respect of airport infrastructure, terminals and integrated building management systems, including advising BAA in respect of T5 (£4.2billion). Rail and metro experience includes contracts and frameworks for tunnelling, track, stations, electrification, catenary, SCADA systems and communication, as well a locomotives. Leisure facility experience includes sports stadia, hotels, cinemas, theme parks, Sea Life Centres, Madame Tussauds, London Dungeons, and London Eye Experience. This work often includes advice on consortium joint ventures, warranties and direct agreements, bonds and guarantees.

Nicholas is highlighted as one of the titans of the international construction market according to Global Elite Thought Leader' Who's Who 2019, with peers heaping praise on him as *'an exceptional lawyer and leader, with a large market presence'*, and describing him as *'brilliant in his presentation of cases and very persuasive in his arguments'*. *'Clients also recommend the "eloquent" Nicholas, who has "excellent advocacy skills"...'* (The Legal 500, 2016, FE listed as Tier 1). *'He is knowledgeable, very approachable and takes on board what we need him to do'* (International Arbitration, London, Chambers & Partners UK, 2019). Nicholas Gould is *'extremely good – he is very convincing during hearings at drilling down the issues to the core'* (The Legal 500). FE is listed as a top tier firm and ranked under International Arbitration (Nov 2018).

He qualified at Masons, and was formerly a senior lecturer at the University of Westminster. Before joining the University of Westminster in 1993 he worked in the construction industry for a period of

approximately 8 years. A solicitor and chartered surveyor, his dual qualifications provide a layer of expertise that adds a practical level to his work.

Nicholas lectures regularly around the world on topics relating to construction law, international arbitration, dispute boards and ADR. He is a Visiting Professor at the Centre of Construction Law and Dispute Resolution, King's College London. He lectures on the CI Arb's prestigious International Arbitration Diploma at Oxford and IBC's Cambridge Summer School. Nicholas was a member of the Policy Subcommittee of the CI Arb, and has advised and drafted guidance notes and protocols for the RICS, CI Arb, and CEDR. He is past Chairman of the Society of Construction Law, and past President of the Dispute Resolution Board Foundation (Region 2).

He has published widely in the area of construction law and dispute resolution, and won a Silver Award at the CIOB Literary Awards in 2000 for his book *Dispute Resolution in the Construction Industry* published by Thomas Telford. The Rt. Hon Sir Philip Otton described the book as '*the most fascinating publication to come across [his] desk for many a year.*' Nicholas is lead author of the report **Mediating Construction Disputes: An Evaluation of Existing Practice** published in February 2010, it received a finalists CEDR Award for Excellence in 2010. In March 2009 he chaired the first Informa live *Web Congress* on construction law and advised Lexis/Nexis in respect of their *Webinars*. He led the Cost Management Pilot research for HMCS and subsequent publications.

Academic Qualifications

- Higher Right of Audience Certificate (Civil Proceedings), College of Law (March 2012).
- Dispute Resolution Board Foundation's DRB/DAB practices and procedures training and the advanced chairing workshop (October 2004, San Francisco).
- **LLM.** Masters Degree in Laws, University College London (1996/97).
- **LPC.** Diploma in Legal Practice at the College of Law, Store Street, London (1995/96). Awarded a **Commendation**
- **Dip Law.** Post-graduate Diploma in Law from the University of Westminster (1993-95) Part-time student representative.
- **BSc (Hons).** First class Honours Degree in Quantity Surveying (1990-92). Royal Institution of Chartered Surveyors **Prize** for best student and a prize-winner of the KPMG **Faculty Award** for major project cost planning.

Directory Listings

"He is knowledgeable, very approachable and takes on board what we need him to do." International Arbitration, London, Chambers & Partners UK 2019

Nicholas Gould is '*extremely good - he is very convincing during hearings at drilling down the issues to the core*' Legal 500, FE listed as a top tier firm and ranked under International Arbitration (Nov 2018)

Nicholas Gould is highlighted as one of the titans of the international construction market. Peers heap praise on him as "*an exceptional lawyer and leader, with a large market presence*", and describe him as "*brilliant in his presentation of cases and very persuasive in his arguments*". Global Elite Thought Leader' in WWL 2019.

Nicholas Gould is an "*extremely well known*" and an "*excellent construction lawyer*" whose practice covers the gamut of contentious and non-contentious work (Who's Who Legal, IBA 2017).

"Clients also recommend the '*eloquent*' Nicholas Gould, who has '*excellent advocacy skills*'..." (Legal 500, 2016, FE listed as Tier 1).

Nicholas Gould is "*rated very highly within the industry*," according to sources. He is noted for his strong market presence in the Middle East and his talent for both contentious and transactional work (Chambers & Partners 2017).

Nicholas features as one of only 5 practitioners in Europe in the inaugural edition 2017 of Who's Who Legal: Thought Leaders: *"In this extremely selective new guide, we feature only the most highly regarded lawyers according to our research – those who truly stand out in their field as being leaders and trailblazers, and who are held in the highest esteem by their clients and fellow practitioners."*

Nicholas Gould is a prestigious practitioner with a particular emphasis on advising clients in relation to contracts and claims in the oil and gas industries. According to sources he is "at the top of his game" (Who's Who Legal, Construction 2016)

The International Bar Associations Who's Who Legal 2015 lists Nicholas Gould as one of the top 5 most highly regarded construction lawyers in Europe stating:

"Nicholas Gould has an *"immaculate reputation"* for construction work across a range of sectors including transport, communications, petrochemical and energy. He has experience of dealing with all forms of contract and is praised for his *"client-focused approach"*. (Who's Who Legal, Construction, 2015).

"Nicholas Gould is favourably described by sources as *"very energetic," "a very charismatic lawyer"* and *"an academic."* (Chambers 2015).

Listed as one of the top 100 lawyers in London and listed in the Construction and Engineering practice area based on nomination and research in Telegraph supplement Super Lawyers June 2014 (Telegraph 2014).

"The well-known Nicholas Gould is considered to be *"outstanding"* in the field. He has extensive experience in transactional work and dispute resolution. Clients also benefit from his qualification as a quantity surveyor" (Chambers 2014).

Nicholas is described as a *"terrific strategist"* and has acted in construction and deals with domestic and international players for energy, transport and communications industry. (IBA's Who's Who Legal, Construction, 2013.)

Legal 500 UK 2012 lists Nicholas Gould in three sections; Construction (highly recommended), International Arbitration (esteemed practitioner) and a mediator.

Chamber & Partners 2011 notes Nicholas for his *"ability to pre-empt potential problems and provide advice in a clear manner that maintains the individual needs of clients"*.

Legal 500, 2011 edition list Nicholas as a leading figure for Construction and Mediation who is *"extremely knowledgeable and listens carefully to his clients"*.

The IBA's 2008 and 2013 edition of International Who's Who of Business Lawyers Today, listed Nicholas as one of the *"ten most highly regarded individuals internationally for construction law"*.

IBA's Who's Who Legal Construction 2010 lists Nicholas within Europe as a specialist in energy, petrochemical industrial and process plant related projects.

IBA's Who's Who Legal Construction 2008 lists Nicholas as *"a star"* highlighted for his *"contract drafting, strategic advice and dispute resolution practice and well known chairman of the Society of Construction Law"*.

IBA's Who's Who Legal Construction 2007 *"revered for his excellent mind"*.

IBA's Who's Who Legal Construction 2011 *"a "strong" reputation for dispute resolution work with contract drafting and project strategy expertise, and sources were quick to praise him as "an innovator" in the field of construction..."*

Chambers and Partners (2006) *"up and coming"* and *"very well known in his field"* with *"a good grasp of the issues"*.

Client References

"In simple terms Nicholas is a pleasure to work with."

"Extremely friendly, professional, and down to earth."

"For their involvement in our project, given the outcome, extremely valuable - avoidance of a costly arbitration – value circa Eur 100m dispute."

"Fee rates were made clear, invoicing has been timely and clearly defined."

"Nicholas is a top quality international construction lawyer who draws on his wide experience obtained from around the world."

"He communicates clearly and concisely the issues, solutions and potential difficulties and in doing so pro-actively seeks to understand the needs of his client."

"Advice provided was clearly based upon expansive relevant knowledge and experience."

"Nicholas is an intelligent strategist and detail orientated lawyer." Lawyer, India

Running a workshop at the First National Adjudication Society's Conference (and organising conference proceedings and venue) 20 November 2002, and subsequent conferences (2003 – 2007).
In house lectures and ad hoc lectures include; ICE Construction Mediation Surgery, 24 June 2002 and 1 day programmes for various clients.
External Examiner, MSc in Construction Law, University of Wolverhampton (from May 2002-2005).
Visiting Lecturer, Department of Building Engineering, UMIST, Manchester (from 2000).
Visiting Research Fellow, University of Westminster (from 1997).
Senior Lecturer (full time) and course leader, University of Westminster (1994-1997).
RICS, Adjudication update lectures and other CPD lectures.
Regularly lectured for; ICC, ICE, DIAC, FIDIC, RICS, CIOB, CI Arb, SIA, IBC, IBA, DRBF, College of Law. Lexis/Nexis, LDR, White Paper Conferences, Sweet & Maxwell.

Interests

Running, sailing (RORC Member).

Key Experience

Acting as Mediator, Adjudicator and Arbitrator

Has acted as lead mediator since 1998 conducting at least 90 mediations. Acted as a project mediator, early neutral evaluator, statutory and contractual adjudicator on many occasions, arbitrator and international dispute board member. Examples:

- DAB member for the ITER (International Termonuclear Experimental Reactor) nuclear fusion plasma power project in France.
- Chairman of the five member panel of adjudicators for the CERN High Luminosity Large Hadron Collider Project (Switzerland/France). Project value Euro 900 million.
- DAB member for a major airport development in Oman. Project value around US\$ 4.2 billion.
- Appointed by DIAC as arbitrator for a property development dispute in the UAE, under UAE law.
- Appointed by LCIA as sole arbitrator on arbitration no. UN122242 in relation to a supply and services contract with disputes in relation to invoicing, VAT, withholding tax, cross border shipping issues.
- Mediator between JV partners (Russian/Netherlands) for development of a 300MW combined cycle gas power generation plant concerning the JV asset conversion financial model dispute. a plant energy model, financial model and risk analysis arising from a disputed energy asset conversion calculation arising from gas unit purchase cost estimations.
- Member of an arbitral tribunal for a telecoms dispute relating to IP (Internet Protocols), data exchange and broadband services between a USA and Singapore company. UNCITRAL Rules, substantive law of Singapore, seat in London.
- A member of an arbitral tribunal for a construction dispute between a Dubai developer and a contractor under the LCIA procedural rules. Seat in Dubai, UAE.
- Appointed sole mediator for a cross border gas supply concession agreement dispute of US\$ 4.8 billion between a UAE company and the Iraq Government.
- Sitting as one of 3 arbitrators in an UNCITRAL arbitration in respect of a power generation plant in Asia.
- Sitting as sole arbitrator in a power/energy and property dispute. Appointed under LCIA rules, and subject to English law.
- Appointed by LCIA as sole adjudicator in relation to the modernisation of Oxford Circus Underground Station.
- Appointed by RIBA as sole adjudicator in a dispute between Local Authority and a design and build contractor, concerning design obligations, variations, extensions of time and a final account payment.
- Acting as an LCIA nominated adjudicator in respect of a disputed valuation.
- Acting as an RIBA nominated adjudicator in respect of a final account dispute.
- Sitting as adjudicator in a three party utilities dispute in respect of a PFI scheme.
- Sitting as a member of an international dispute adjudication board for a shopping centre project in Romania. Based on the FIDIC form of contract, with ICC arbitration, subject to Romanian law with a French contractor.
- Sitting on an international DAB for a 99,000 square metre residential development in Romania, under an amended FIDIC (Red Book) form of contract with ICC arbitration.

- Acting as an early neutral evaluator for a mechanical and electrical dispute arising from a PFI hospital. Settled.
- Appointed as adjudicator in respect of a dispute on a process engineering plant (CEDR Adjudication Rules) in the middle east.
- Serving on several dispute adjudication boards in Romania under the FIDIC Adjudication Procedure.
- Appointed jointly by parties as mediator for a unit service charge claim in relation to asylum seekers accommodation throughout the UK, for substantial sums of potentially £30 million.
- Representing client at mediation in relation to defects to a roller coaster ride.
- Representing a client at mediation in relation to an expense claim against a sub-contractor.
- Representing a client at mediation in relation to a solar energy park.
- Standing member of a contracted mediation panel for a new £35 million hospital development which started in the summer of 2002 (GMP Contract with bespoke contracted mediation procedure). The first joint session was attended by 47 people representing 8 parties.
- Mediator for a 5 party insurance, property and construction defects dispute arising from substantial flooding of a city bank and computer server centre. Settled on the day.
- Mediating a dispute in respect of liability and quantum for the costs of substantial flood damage to a property. Dealing with the CCFA implications of the settlement. Multi party dispute between insurers of the property owners (subrogated claim), the contractor, mechanical subcontractor, the supplier and manufacturer (again with insurers).
- Mediator for a substantial multi-party construction dispute concerning defects, delays and money claims in respect of the re-development of a town centre. The 4 parties attended a two-day mediation resulting in two separate (a two party and a three party) settlement agreements resolving all of the inter-related, and inter-party disputes.
- Mediator in respect of a specialist metalwork and atrium glazing dispute. Settled on the day of mediation.
- Mediating a property related dispute of approximately £1.2 million arising from the removal of “fixtures and fittings” at a chemical process engineering plant.
- Acting as mediator in respect of a substantial value 5 party dispute arising from water damage caused by bursting pipes at a commercial premises during construction work. Successfully resolved in a one-day mediation, with two separate settlement agreements spanning all parties.
- Mediator for a defects/property dispute where the claim value was £450,000. A settlement was reached on the day of mediation.
- Mediator for a property dispute between a property investment company and the tenant (a substantial charity) involving a schedule of dilapidations. The parties were about £200,000 apart. A settlement was reached at the end of a one-day mediation.
- Mediator for a variety of property development disputes and landlord and tenant disputes. All resolved on the day of mediation.

Dispute Resolution

Advising on and conducting international arbitrations under numerous rules and procedures including ICC, LCIA, UNCITRAL, SIAC, DIAC, DIFC, ADCCAC, AAA, LMAA, ICSID and CIMAR.

Regularly advising owners, contractors, and sub-contractors in bringing or defending a wide range of adjudications varying from small financial claims to large complex multiple issue claims in respect of time, money, defects and other issues. Also advising adjudicators during adjudications, and advising parties in respect of enforcement (conducted more than 200 adjudications) and enforcing and representing as necessary and acting as adjudicator. Regularly acts as a legal representative for parties to mediation.

Experience in this area includes professional negligence, defects, defective mechanical and electrical installation, loss and expense claims, delay and disruption claims across many industry sectors. Examples:

Energy and power

- Hydro electric plant, Africa. Advising on a claim for over 2,500 days extension of time and related damages in excess of US\$800m under an amended FIDIC Red book with a myriad of supplemental agreements for a 6,000 MW plant. DAB and ICC arbitration.
- New Nuclear Power Plant, UK. Advising an international contractor in respect of the contractual framework, risks and obligations.
- Solar PV Plant, Peru. Advising the project sponsor in respect of claims and calling on the contractor's bond.
- Solar PV Plant, Chile. Advising in respect of delays, claims, bonds extensions and settlement.
- Nuclear Power Plant, Finland: Advising an international specialist German power plant contractor in respect of a claim relating to pipework installations at a new nuclear power plant. Referring the matter to expert determination and receiving in the client's words a "100%" win.
- Solar Power Plant, UAE. Advising a consortium partner in respect of an 800MW solar plant under an EPC contract.
- Power plant, Riga, Latvia. Defending the government against an extension of time and financial claims in a DAB process under a FIDIC contract. Claim was entirely defeated.
- Solar plant UK.
- Nuclear Power Plant, UK: Advising a power plant company in respect of compensation events, delay claims and financial claims under an amended NEC contract in relation to refitting works at an existing Nuclear Power Plant. Advising on the prospect of the claims, time-bar issues and potential settlement strategies.
- Acting for the contractor in respect of Europe's largest gas combined cycle power plant (1,800 MW £1billion). Advising on subcontract claims, adjudication, taking over, hand over packages, injunctions and insolvency under Italian law. See *Alstom Power Ltd v Somi Impianti SRL* [2012] EWHC 2644 (TCC) 08 October 2012.
- Renewable Energy (Ocean Current Power Generation). Drafting contracts for the innovative renewable ocean current energy generation project in the Firth and Orkney Waters, Scotland. Our client produced the World's first commercial scale grid connected shoreline wave energy device, and this technology has played a substantial part in developing commercial use of this renewable energy source.
- Acting for a joint venture contractor in respect of a substantial off shore wind farm under an amended FIDIC 1999 Yellow Book. Providing advice in respect of design obligations, extensions of time, disruption, money claims and dispute resolution procedures.
- Acting for a joint venture contractor in relation to a potential high value (circa £150 million) dispute arising from a UK off shore wind farm project. Advising on various contractual issues, entitlement to extensions of time and associated additional costs as a result of variations and developing overall strategy.

- Acting for one of the world's largest specialist power station contractor in respect of a substantial extension of time and prolongation claim under a bespoke EPC contract. Dealing with technical issues relating to ground condition, piling and changes in design, as well as advising on the legal mechanisms in the contract. Advice in respect of the dispute resolution provision comprising mediation, contractual adjudication and High Court litigation.
- Acting for the National Energy Authority of a Government to advice on and defend an ICC arbitration under an amended FIDIC 1987 Red Book contract for the construction of a hydroelectric dam in Asia. The joint venture contractor's claim of Euros 145 million (including many years of delay) was met with a counterclaim of Euro 162 million, so the parties were in excess of Euro 330 million apart.
- Advising on intellectual property rights relating to the design of cooling systems of a power station.
- Providing contractual and claims advice in respect of a JV agreement and EPC turnkey agreement for a 900 MW oil fired steam power plant and desalination plant (880,000 cubic metres of fresh water per day). Project cost US\$ 1.8 billion. One of the largest independent water and power projects in the world at the time. English law, bespoke adjudication and ICC arbitration. Claims circa USD300million.
- Advise in respect of force majeure claims under a bespoke EPC (FIDIC based) contract for a combined cycle power plant.
- Acting for EPC contractor in a claim against a Saudi Arabian company on an IWPP Project in Saudi Arabia. Arbitration proceedings in London under the UK Arbitration Act 1996. Claim successfully settled.
- Advising an EPC contractor on legal issues arising throughout construction of an IWPP Project in Qatar, including advising on claims against consortium partner, multiple claims against Owner in relation to delays and cost overruns. Advised on contractual adjudication proceedings against Owner and on potential arbitration proceedings against owner and consortium partner. Claims circa USD30million.
- Advising turbine contractor in respect of the refit of the Aswan hydro electric dam, Egypt.
- Advising power station constructor in respect of force majeure and financial claims brought by a package contractor in respect of a hydro-electric project in Canada (Canadian law, bespoke EPC Contract, ICC arbitration).
- Advising joint venture power station contractors relating to their right to further work under an agreement requiring notices to commence phases of work, and drafting advice relating to a contract for supervision and commission of turbines for a power station in Tasmania (Tasmanian law, bespoke EPC Contract).
- Representing and providing strategic advice to a specialist hydro-electric manufacturing and installation contractor for delay, limitation of liability and damages provisions in respect of a project in Georgia (English Law, ICC Arbitration, Bespoke EPC Contract).
- Advising joint venture power station contractor in respect of claims arising from the construction of a power station in Brazil (Brazilian Law, bespoke EPC Contract).

Data centres

- Advising a contractor in respect of a series of new data centres in the UK and across Europe. The advice covering the contractual obligations, risks and supply chain provisions.
- Providing advice in respect of a fatality, including HSE and police investigation issues, indemnity, insurance, delay, and financial issues. Providing strategic advice in respect of delays, disruption

and prolongation claims in the context of adjudication and court proceedings. Settled by negotiation.

- Bank server replacement claim due to flooding, multi-party, TCC litigation, settled at mediation.

Oil and gas

- Providing strategic advice to an oil company in respect of project delays and cost overruns relating to the upgrading of a tank farm, new pipe work installation, pumping systems, the renovation of existing aviation fuel lines, leak detection and SCADA systems (various bespoke forms of contract and ICE 6th).
- Defending an oil company from claims brought by welding and pipe work trade contractor.
- Advising an oil company in respect of third party claims for defective pipe manufacture.
- Drafting set of co-ordinate documents including security documents and letters of credit for a bio-diesel process engineering plant for use with UK and European contractors (NEC Option F: Management Contract and FIDIC EPC/Turnkey “Silver Book”).
- Advising on MF/1 and IChemE contracts in relation to jet fuel tank farm pipe work upgrading.
- Iraq, Basrah region - Advising an international contractor under an EPC pre-commissioning lump-sum turnkey basis gas and oil separation plant (GOSP) with a capacity of 200,000 barrels per stream day (BPSD). Advising on time-bar conditions precedents, and drafting claims for EOTs, design approval delays, constructive variations, prolongation and disruption. Multi-stage dispute escalation provisions leading to LCIA arbitration, London.
- Iraq, Southern area - advising a major middle east contractor in relation to a US\$200million trade package on a new oil production facility for equipment installation, electrical and instrumentation, oil and water storage tanks and pre-commissioning. Claims related to design approvals, scope of variations, delay, prolongation and disruption costs. LCIA arbitration, settled.
- Nigeria, Delta – advising the contractor in respect of a gas to liquid plant (GTL) under an on shore and off shore contract in relation to variations, delay, and force majeure events. Financial claims varied from typical to challenging. Expert determination, pathological arbitration provisions based on UNCITRAL and requiring joinder.
- Thailand – drafting appointments and EPCM packages contracts for a jet fuel hydrocarbons upgrading and expansion project.
- Thailand – advising an international oil company in respect of a potential professional negligence claim against engineers in relating to defects in the FEED/P. Bespoke appointment, Thai law and LCIA arbitration.

Process engineering, waste and water

- Representing a specialist mechanical and piping contractor for delay, disruption and costs claims on a bulk filling and sterile antibiotic Augmentin plant in the UK. Numerous adjudications under an amended IChemE Yellow Book Subcontract.
- Sewage treatment works, Bahrain. Advising in relation to micro-tunnelling, standing time, workmanship termination and related damages, ICC arbitration, settled.
- Referring claims for compensation events for a mechanical and electrical specialist in respect of a dairy plant in the UK under an NEC3, Option C, heavily amended.
- Representing a German contractor in relation to the construction of a waste management site in Romanian under an amended FIDIC design and build contract, subject to Romanian law. Advising on delay and money claims, implications of the determination of the engineer’s appointment, completion, DAB provisions and direct referral to ICC arbitration.

- Advising and conducting an international arbitration in Singapore at SIAC under the UNCITRAL Procedural Rules, subject to Singapore procedural law and the substantive law of Indonesia in respect of a PTE Process Engineering Plant constructed in Indonesia.
- Representing a Caribbean government in front of a dispute board for a waste management plant. A series of disputes were referred by an international contractor under the FIDIC Orange Book for a variety of extension of time issues, variations and prolongations costs. Advice in respect of the contract under the local law, enforcement, and injunctions in the Caribbean and Canada, and ICC arbitration.
- Representing contractor in respect of claims relating to a desalination plant (multistage flash plant) under and EPC contract in Kuwait. ICC arbitration.
- Advising EPC Contractor on legal issues at early stages of an IWPP Project in the United Arab Emirates, including detailed review of draft EPC Contract terms, review of Consortium Agreement Term Sheet, review of major supply contracts, advice on liability caps and exclusions; and advice on warranty obligations.
- Advising desalination contractor in relation to termination of a project in Saudi Arabia, LCIA arbitration, and enforcement. Settled.

Transport, rail and airports

- Advising a consortium of contractors in respect of a section of the Riyadh Metro, KSA for delays and design issues. FIDIC amended contract with DAB and international arbitration.
- Advising a French train manufacturer in respect of contractual and O&M obligations for a metro project in the Kingdom of Saudi Arabia.
- Advising an international locomotives manufacturer in respect of a 27 year concession agreement.
- Advising the Central Finance Department of a European Country in respect of procurement, ISPA and EIB funding arrangements and disputes arising from an amended FIDIC Yellow Book highway contract.
- Advising a joint venture contractor in respect of a EIB funded motorway project against a national authority for roads in respect of extension for time, prolongation and disruption costs under a FIDIC 1999 amended Yellow Book in DAB proceedings and ICC arbitration.
- Advising a government's transport ministry in respect of a new metro system. Including procurement advice, drafting FIDIC (Yellow 1999) based contracts for tunnelling, track, stations, electrification, systems and communications. Drafting engineer's appointment. Project value in excess of €500million.
- Advising a Germany company with regards to the supply of locomotive parts (engines, gear boxes etc) to Africa under and amended ORGALIME contract.
- Advise regarding a dispute for the purchase and finance of an airline plane for a private individual.
- Defending a claim under the LMAA arbitration rules for a civil claim arising from a fatality on a super tanker's maiden voyage.
- Advising a ministry of transport in relation to claims and termination of an EU funded (ISPA and IEB) rail renovation works, related civil engineering, electrification, catenary and SCADA systems under an amended FIDIC 1999 Yellow Book. Issues included land appropriation, permits, delays, variations, supplemental agreements and financial claims in excess of €100million. Advising in respect of DAB proceedings and ICC international commercial arbitration.
- Advising an airport owner in respect of a £4.2 billion airport development in respect of claims under bespoke NEC based partnering packages for the building management system and related claims.

- Advising an international telecommunications company with regards to repudiation of an agreement for signalling, communication and train control systems for a new railway installation at a substantial new airport terminal in Europe (NEC bespoke Partnering Framework Agreement).
- Advising international contractor in respect of train control systems for the upgrading of a tube train system (NEC based). Advice related to claims and potential adjudications.
- Advising and negotiating bespoke contracts for rolling stock for over ground rail system in Australia, and co-counselling with local lawyers.
- Advising a contractor in respect of a disruption claim (measured mile analysis) for works to a metro station under a bespoke subcontract.
- Advising in respect of claims for electro magnetic resonance allegedly caused by electrified railway affecting the steel structure of a bridge building.

Roads, bridge and tunnels

- Advising and representing a joint venture contractor in relation to a motorway in Romania under an amended FIDIC Yellow book, subject to Romanian law. Advising on land acquisition, extensions of time, money claims, clause 20, DAB and ICC arbitration.
- Advising TMB manufacture in respect of the Eurasia twin tunnel contracts.
- Water storage and recovery project including 134km of pipework.
- Advice regarding strengths and weaknesses and the appropriate procedure for bringing a multi party design and workmanship claim against a contractor and a consultant for a defective mechanical swinging bridge.
- Advising civil engineering contractor in relation to extensions of time, disruption variations, loss and expense to road widening and upgrading works.
- Advise relating to delay and money claims arising from motorway traffic control and communications systems.
- Advising a Ministry of Transport in relation to delay and costs arising from a new 1.9 km cable-stayed road and rail bridge between the cities of Vidin, Bulgaria and Calafat, Romania. Work started in 2007 and was completed in 2013.

Sports stadia, leisure and entertainment

- Expo 2020, Dubai. Advising an Italian JV contractor in respect of the main Trellis building.
- Museum, Abu Dhabi. Advising delay and money claims, bonds under a package contract under UAE law for a complex load bearing dome weighing almost double the weight of the Eiffel Tower and resting on only four points.
- Hotel, UK. Acting for the building owner in respect of substantial failures to comply with the fire compartmentation, stopping, fire collars and related life safety systems resulted in a multi-party claim against contractor and consultants. Mediation and TCC High Court litigation; settled.
- Swimming pool complex, UK. Advising a glulam beam manufacturer and installer in a six party defects claim as part of a PAP and TCC litigation. Settled after a mediation.
- Advising a contractor in an international arbitration in respect of a new hotel development in Abu Dhabi. DIAC arbitration, UAE law.
- Drafting and advising the contractor in respect of the key subcontracts for Twickenham rugby stadium.

- Advising a major leisure company in respect of claims brought in adjudication for a water theme park hotel in the UK (JCT WCD 98). Advising in respect of defective pools and flumes. JCT adjudication rules and CIMAR arbitration.
- Advising one of the world's largest entertainment companies in respect of delay and financial claims arising from a chilled ceiling installation at their new Central London headquarters. The potential adjudication was settled.
- Drafting contracts for the 4D cinema at the London eye.
- Advising owner in respect of the contractual documentation for the refurbishment of the Blackpool Tower.
- Drafting and settling contract documents for Sealife Centres in Portugal, Italy, Denmark and the UK (including the London Aquarium)
- Advising on contracts for roller coaster rides manufactured in the USA and installed in Europe.
- Advising and drafting contract documentation for renovation works, and new attractions for Legoland, Thorpe Park, Chessington World of Adventures, and Madame Tussauds.
- Producing claim documentation for a hotel owner (Jasper Conran) in respect of the mechanical and electrical works (carried out by Clarke, & Sulzer) in respect of the case of *Great Eastern Hotel Co Ltd v John Laing Construction Ltd* (2005) EWHC 181 TCC.
- Conducting an arbitration for a specialist contractor in respect of claims and repudiation relating to mechanical, electrical and public health works carried out to an apart'hotel in London (amended JCT D&B, CIMAR Rules). Enforcing award in Europe under the New York Convention 1958.
- Defending a high value adjudication for and extension of time, variations, loss and expense under an amended JCT design and build contract in respect of mixed use (mainly hotel and apart'hotel) development.

Banking, bonds and guarantees

- Advising a London and Middle East based bank in relation to demands made under advanced payment bonds for a major project in Qatar.
- Advising a bond provide in relation to liability and strategy for dealing with an arbitration involving an insolvent contractor. Successfully settled.
- Advising client in regards to a call against a bondsman (Technical and General). Advice regarding settlement, timing and issuing of proceedings and advice regarding strength of claim. Advice regarding insolvency of Technical and General.
- Advising bank after the insolvency of a developer in respect of an incomplete building with deep excavations and hydraulic temporary support.
- Advising bank in respect of stepping into a part complete development after building owner arrested on allegations of fraud.
- Advising airport operator in respect of a potential call on a bespoke guarantee.
- Advising transport authority in relation to calling on advanced payment and performance bonds.

Hospitals and Medical

- Advising client in respect of contract PFI Obligations and contract formation between the contractor and key sub-contractor. Specific advise in respect of misrepresentation and areas of/or mistakes.
- Acting as an early neutral evaluator in respect of a dispute arising between an SPV and contractor in relation to a PFI hospital.

- Advise in respect of interior fit out works to a chain of dental surgeries.

Construction and engineering

- Fire damaged tower, London. Advising in relation to liability for death, personal injury and property damage arising from fire. Considering insurance cover and focusing on cladding and compartmentation issues.
- London HQ. Acting for a world leading media and entertainment company in respect of serious defects to a 40,250 M2 advising in respect of multi-party liability under a JCT D&B 2011 amended contract, guarantees, collateral warranties, CAR and PI insurance policies.
- Tall Tower, central London. Defending proceedings for an MEP subcontractor for delay damages and claiming and extension of time and prolongations costs in a PAP process.
- Mediator for a multiparty specialist contractor, supplier and manufacturer dispute in respect of a manufacturing defect with values in fan coil units of an HVAC system. The dispute concerned the liability for and cost of replacing the valves after the ceilings had been installed, re-balancing the system and the associated delay and disruption. A settlement was reached at the mediation.
- Acting in an international arbitration under the DIAC rules for a civil engineering contractor in Abu Dhabi in respect of a claim relating to part of a major development in Dubai under a bespoke contract. The international tribunal held regular telephone conferences to review trial preparation and deal with procedural matters.
- Advising and representing a contractor in respect of repudiation of a series of contracts and payment claims relating to 11 construction sites with the same employer. Following the Construction & Engineering Pre-Action Protocol and pursuing litigation in the Technology and Construction Court, London.
- Advising Turkish contractor in respect of claims against an American organisation for construction of a hospital carried out in the Afghanistan (bespoke contract).
- Advising leading specialist M&E contractor in a 6 party dispute in the Technology and Construction Court relating to alleged defective bus bars, the explosion of a transformer, warranties, limitation and level of damages. Settled in mediation.
- Conducting defence for a hotel owner in relation to a £120,000 fee claim. Claimant ordered to pay our defendant client £1,650 (see *Nigel Witham Ltd v Smith & Isaacs* [2007] EWHC 3024 TCC). See also the costs case and Halsey mediation issue case (*Nigel Witham Ltd v Smith & Isaacs* [2008] EWHC 12 TCC).
- Advising a contractor in respect of defects claim, insurance issues and mediation arising from the construction of one of the largest pre-cast concrete car parks constructed in the UK, defending the contractor in an adjudication brought by the specialist pre-cast concrete sub-contractor.
- Conducting a series of adjudications for a civil engineering contractor in respect of substantial claims relating to the construction of a luxury car manufacturing plant in Sussex. Bespoke management form with bespoke adjudication procedures.
- Advising a civil engineering contractor in respect of the operation of NEC sub-contract (containing Z clauses). Providing strategic advice in respect of the claim development, presentation and settlement.
- Advising an Irish contractor in respect of an arbitration for repudiation of contract, money and time claims (Government Departments and LA conditions of contract GDLA 1982).
- Advising and representing fit-out contractor in respect of a time, disruption and money claim brought by a sub-contractor in adjudication (bespoke sub-contract form).

- Advising fit-out contractor in respect of a potential claim brought under a bespoke management trade contract for a residential central London development.
- Advising contractor in respect of a disputed settlement agreement, and representing it during an adjudication and potential litigation (disputed terms of contract). Settled.
- Advising and representing a contractor in respect of a defective window claim to a new office in Croydon (JCT 98). Dealing with both employer and window sub-contractor issues.
- Defending litigation for a specialist contractor in respect of building management systems and mechanical and electrical works to a government department.
- Defending fit-out contractor in an adjudication brought by a specialist air conditioning company. Resisting enforcement in the Technology and Construction Court, and settling the matter.
- Carrying out a claim audit and providing strategic advice to a developer in respect of a claim brought by a contractor (amended JCT WCD 98). The contract was an amended ICE 6th Edition, with adjudication provisions and litigation.
- Advising contractor in respect of a claim brought (and potentially defending a contractor against employer's claim) in respect of an allegedly defective cold sealed standing seam flat roof.
- Advising various parties in respect of party wall disputes under the Party Wall Act etc 1996.
- Advising specialist finishing contractor in respect of a VAT dispute.
- Advising management company in respect of a claim for a defective mechanical installation and roof installation of a residential block of 140 apartments in Central London.

Professional Negligence

- Advising a developer in respect of a claim against an architect for costs arising from delay and incomplete design allegations.
- Claims relating to the design and project management of the renovation of existing hydro carbon oil installation and pipework.
- Litigation in the TCC in respect of the design of rehabilitation work to a tank farm.
- Multi-party claims in respect of design, project management and costs of an adventure park ride.
- Claims in respect of geotechnical design.
- Multi-party claims relating to structurally defective buildings and warehouses.
- Multi party claims in respect of substantial settlement, structural failure, piling design of a pumping station.
- Claims arising from the collapse of the façade supported rear-elevation of a building under renovation.
- Claims relating to an architect's design and contract administration.

Development and Project Work

- Negotiating a contract for an international bank fitting out part of the Swiss Re Tower St Mary Axe, London. The iconic Swiss Re Tower is better known as the "Gherkin".
- Acting for the second largest entertainment company in the world, drafting and advising them in respect of new developments in the UK and around the world. Establishing a suite of construction precedents and negotiating new developments at Chessington World of Adventures, the London Eye, the London Aquarium, as well as roller coaster rides, sea life centres, cinemas and other projects in various countries.
- Acting for Canary Wharf Contractors negotiating and settling construction documentation with trade contractors, and for agreements for lease, and fit out works for various towers including; BP1

(Barclays tower), BP2 (similar tower), BP3, BP4, HQ2, HQ3 Cabot Hall, and DS7. Dealing with many of the well now contractors and specialist as well as those taking leases at the towers at Canary Wharf.

- Negotiating the project documentation for the developer of a substantial mixed use development (residential, hotel, retail, car parking) in Broad Quay in Bristol.
- Providing public procurement and strategic construction procurement and documentation advice for a new phase of a metro system. Comprising tunnel boring, track, communication systems, sunk station box and new stations.
- Drafting set of co-ordinate documents including security documents and letters of credit for a bio-diesel process engineering plant for use with UK and European contractors (NEC Option F: Management Contract and FIDIC EPC/Turnkey "Silver Book").
- Advising international specialist curtain walling contractor in respect of a framework agreement for tunnel lining and cladding systems to a new major airport terminal in Europe (bespoke partnering framework agreement).
- Drafting and settling construction documentation for the £140M redevelopment of the Harrods Depository in London comprising demolition, new build apartments, penthouses, townhouse and retail (reported in **Legal Business**, November 2001), **Commercial Lawyer**, issue 49, 2001, and Sunday Times, 25 November 2001).
- Advising specialist hydro-electric contractor in respect of bidding for EPC projects (various forms of bespoke EPC Contracts, in various parts of the world including Canada, Latin America, USA, Central Europe and Australia).
- Drafting co-ordinated development documentation for a developer for a series of apart'hotels and residential developments throughout the UK. Settling building contracts, security documents, and professional team appointments.
- Advising contractors and sub-contractors in respect of bespoke amendments to various standard forms and negotiating and settling the same (JCT, NEC, DOM etc).
- Drafting and advising upon co-ordinate documents for a substantial development on an island site in Bristol comprising apartments, a serviced apart'hotel, a hotel, retail and car-parking to be carried out in phases.
- Providing contract advice to a major contractor in respect of a Central London, Mayfair hotel. Drafting step-down sub-contract provisions.
- Drafting bespoke step-down sub-contract provisions in respect of the redevelopment of a major rugby football club.
- Advising specialist industrial contractor in respect of a bid for the upgrading of a coal power station in Bulgaria (Bespoke EPC Contract).
- Advising European turbine specialist in respect of a joint venture with a substantial UK based international turbine manufacturer.

Investors and Funding Institutions

- Advising pension fund on the forward funding of Kensington Village London, comprising 157,000 sq ft of office (reported in **Legal Business**, November 2001).
- Advising funding institution in respect of new 50,000 sq ft. shopping store in Maidstone involving the canalisation of the River Len.
- Working with a property group to sell Guardian Assurances £700M UK property portfolio (reported in **Gazette** 28 January 2000).

- Auditing documentation for an investor in respect of freehold Central London office development of 93,000 sq ft.
- Auditing construction documents for international telecommunication company's purchase of 120,000 sq ft of new office at Chiswick Park, London (featured in **Building**, 24 November 2000, pages 40-45).
- Drafting documents for Zandra Rhodes' fashion museum, Bermondsey Street, London (featured in **Building**, 18 August 2000, pages 14-15).
- Working with property group to package and sell an investment portfolio of £180m worth of property developments. The developments were in various stages of construction.

Publications

Nicholas has written or edited all of the 500+ case summaries for the **Adjudication Society**, which are published in their Newsletter and available on their website at www.adjudication.org (since its inception in 1999). He is the past editor of the weekly Case Summary for the internet site of **Building Magazine** (2003 - 2013) and has written case summaries and book reviews for the **Construction Industry Law Letter**. Publications include:

Books, Chapters, Reports, Guidance Notes, Contracts

- Gould, N. and Lockwood, C. (2018) Chapter 13 Dispute Boards in Renato Nazzini (Ed) **Transnational Construction Arbitration**, Informa Law.
- Gould, N. (2017) Chapter on Dispute Resolution in Yanal Abul Failat and Anél Ferreira-Snyman (Eds) **Outer Space Law: Legal Policy and Practice**, Global Law & Business.
